Customer churn overview

Customer segments, observed churn and model risk

Executive Overview | Retention Playbook

Contract
- [ ] Month-to-month
- [ ] One year
- [ ] Two year

Internet service
- [ ] DSL
- [ ] Fiber optic
- [ ] No

Senior citizen
- [ ] Select all
- [ ] No
- [ ] Yes

Tenure (months)
- [ ] 0-6
- [ ] 6-12
- [ ] 12-24
- [ ] 24-60
- [ ] 60+

Model risk band
- [ ] High
- [ ] Low
- [ ] Medium

Retention opportunities

Compare segments, check sample sizes, then choose a hypothesis to test

Observed churn: tenure × contract

tenure_bucket	Month-to-month	One year	Two year	Total
0-6	55.4%	3.2%	1.0%	**54.4%**
6-12	46.9%	3.0%	0.4%	**42.9%**
12-24	36.0%	2.1%	0.2%	**28.6%**
24-60	30.9%	5.1%	0.5%	**14.2%**
60+	24.1%	9.9%	1.3%	**3.7%**

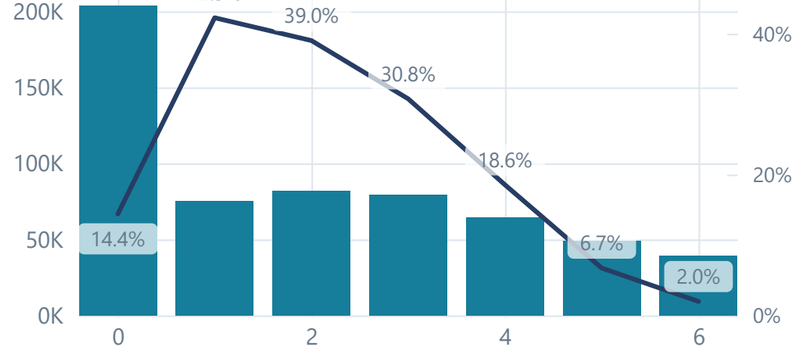

Observed churn by monthly charges

Segments with at least 1,000 customers

Contract	tenure_bucket	InternetService	Segment Customer Count	Segment Churn Rate
Month-to-month	0-6	DSL	25040	39.3%
Month-to-month	0-6	Fiber optic	47058	76.8%
Month-to-month	0-6	No	12576	7.1%
One year	0-6	No	1022	2.6%
Month-to-month	6-12	DSL	15337	19.4%
Month-to-month	6-12	Fiber optic	39537	63.6%
Month-to-month	6-12	No	5567	3.6%
Total			**590851**	**22.6%**

Customer volume and churn by service count

Ideas to test

Onboarding: test an early follow-up for new month-to-month customers.
Service experience: investigate billing and support for Fiber optic segments with high observed churn.
Offers: evaluate contract or service-bundle offers with a comparison group before claiming retention impact.
